JATRONIC AB50.

Jatronic AB50 Crane and drillers cabin solution is the preferred solution for crane operators in pressurized cabins. The set comprises of a footpedal and a gooseneck microphone connecting to a specific radio. The microphone is omni directional and can be ordered in sizes 40, 60 or 80 cm. (specify when ordering) The mounting bracket for the gooseneck microphone is in solid aluminium providing a steady placement wherever needed. Jatronic AB50 can be interfaced with any radio brand.
