

CRANE CABINET

Jatronic single or dual Crane Cabinet

Contact us to find your solution!

Jatronic AS customizes Crane Cabinets with integrated radios for most purposes. The most popular version includes the Motorola DM4xxx series and-/or the Motorola TETRA MTM series. Single or double cabinet for 1 or 2 users/1 or 2 radios.

Optional integration of:

- PA one or two ways.
- Footswitch PTT or joystick operation
- External Gooseneck Microphone
- External speaker and-/or headset

Jatronic Crane cabinet solutions are manufactured according to customer specifications. Radios and the main equipment are placed in a compact enclosure. The system is supplied with, footswitch or push button (PTT or PA operation). Microphone type gooseneck with customized length and placement.
